

## HuffPost UK Selects DeeperDive From Taboola, Gen AI Answer Engine Built for the Open Web, to Connect Readers with Timely, Contextual Answers for Topics They Care About

April 14, 2026 at 9:00 AM EDT

### Partnership Focused on Increasing Readership and Engagement, While Opening Additional Revenue Streams

NEW YORK, April 14, 2026 (GLOBE NEWSWIRE) -- [Taboola](#) (Nasdaq: TBLA), a global leader in delivering performance at scale for advertisers, announced today that HuffPost UK has selected [DeeperDive](#), an industry-first Gen AI answer engine that lives directly on publisher websites and leverages their own content.

DeeperDive brings the power of GenAI search engines directly onto publisher websites, tapping into years of proprietary, real-time, high-quality content created by journalists and editors across the open web. Readers can ask questions about topics they're interested in, and have AI provide answers instantly, sourced from the journalists and the brand they trust.

DeeperDive prompts questions that may be of interest to readers, delivers direct responses, and surfaces additional context and stories from the same publisher site. By meeting users with intuitive, conversational interfaces and instant, relevant answers, HuffPost UK can stay competitive in a rapidly shifting digital landscape and reinforce their brand as a trusted, forward-thinking destination.

"The way people access information is changing, but audiences still want high-quality, trustworthy content. DeeperDive enables us to use AI in a way that is helpful to our audience, without compromising on quality, so that we can continue to provide UK audiences with the accurate and compelling journalism for which HuffPost is known," said **Cate Sevilla, Editor-in-Chief**, at HuffPost UK.

"HuffPost is taking their great history of creating human-centric, reader-first news even further with DeeperDive," said **Adam Singolda, CEO and Founder at Taboola**. "With DeeperDive, HuffPost readers can enjoy a more personalised experience than ever before, as they ask their own questions and learn about the topics that matter to them most. We look forward to seeing how DeeperDive can drive HuffPost's growth and support the publication as it continues to put people at the heart of its reporting."

DeeperDive is built to provide:

- **Smarter, more diverse answers for readers:** Readers receive rich, multifaceted answers, based on Taboola's advanced AI and real-time insights from over 600 million daily active users across a global network of 9,000 publisher partners. Unlike traditional GenAI engines that rely on static training data, Taboola understands what people are actively reading and engaging with — across topics, geographies, and moments. This unique "pulse of the internet" allows DeeperDive to surface timely, contextual answers and even suggest questions based on current trends. The result is a richer, more human search experience rooted in what truly matters to real people — right now, on the site they trust.
- **Increased readership and engagement for publishers:** Every reader question is met with a clear, intuitive answer, along with links to relevant and timely articles from across the publisher's site. This keeps users engaged longer and encourages deeper content exploration. For the first time, publishers can engage their audience with real-time, AI-powered content tailored to the user, whether it's about travel plans, a favorite sports team, or important financial decisions, meaningfully increasing time on site and reader loyalty.
- **Unlocking high-intent ad revenue opportunities and owning the future with AI agents across high intent categories:** DeeperDive has the potential to create a new monetization channel for publishers starting by inserting contextually relevant, high-intent ads directly into the AI-powered results page. Publishers can capture search-like advertising revenue within their own environments — turning user inquiries into meaningful commercial opportunities, all while maintaining a seamless reader experience.

### About Taboola

Taboola empowers businesses to grow through performance advertising technology that goes beyond search and social and delivers measurable outcomes at scale. Taboola works with thousands of businesses who advertise directly on Realize, Taboola's powerful ad platform, reaching approximately 600M daily active users across some of the best publishers in the world. Publishers like NBC News, Yahoo, and OEMs such as Samsung, Xiaomi and others use Taboola's technology to grow audience and revenue, enabling Realize to offer unique data, specialized algorithms, and unmatched scale.

### Disclaimer – Forward-Looking Statements

Taboola (the "Company") may, in this communication, make certain statements that are not historical facts and relate to analysis or other information which are based on forecasts or future or results. Examples of such forward-looking statements include, but are not limited to, statements regarding future prospects, product development and business strategies. Words such as "expect," "estimate," "project," "budget," "forecast," "anticipate," "intend," "plan," "may," "will," "could," "should," "believes," "predicts," "potential," "continue," and similar expressions are intended to identify such forward-looking statements but are not the exclusive means for identifying such statements. By their very nature, forward-looking statements involve

inherent risks and uncertainties, both general and specific, and there are risks that the predictions, forecasts, projections and other forward-looking statements will not be achieved. You should understand that a number of factors could cause actual results to differ materially from the plans, objectives, expectations, estimates and intentions expressed in such forward-looking statements, including the risks set forth in the Company's Annual Report on Form 10-K for the year ended December 31, 2024 under Part 1, Item 1A "Risk Factors" and our subsequent filings with the Securities and Exchange Commission. The Company cautions readers not to place undue reliance upon any forward-looking statements, which speak only as of the date made. The Company does not undertake or accept any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements to reflect any change in its expectations or any change in events, conditions or circumstances on which any such statement is based.
