

Taboola Integrates DoubleVerify's Authentic Marketplace Solution, Giving Brands a More Granular Way to Customize Brand Safety; Offering Marks Partnership Expansion with DoubleVerify

August 5, 2024 at 9:01 AM EDT

NEW YORK, Aug. 05, 2024 (GLOBE NEWSWIRE) -- Taboola (Nasdaq: TBLA), a global leader in powering recommendations for the open web, today announced its adoption of DV Authentic Marketplace, a pre-bid activation solution from <u>DoubleVerify</u> ("DV") (NYSE: DV), the leading software platform for digital media measurement, data, and analytics.

Since 2021, Taboola's advertiser partners have had access to DV's standard brand suitability and ready-to-use pre-bid segments, allowing for control over the quality of where their ads are placed.

Now, with the integration of DV Authentic Marketplace, Taboola advertisers can experience the benefits of DV Authentic Brand Suitability (ABS) on the platform. Advertisers are able to go beyond standard categories and keyword blocklists – enabling customized protection that helps advertisers avoid unsafe and unsuitable content before placing a bid.

With DV Authentic Marketplace, Taboola advertisers can import their custom brand safety and suitability settings from across their entire media mixes into Taboola campaigns. This allows for campaigns that run on Taboola to adhere to the same brand safety preferences a brand has across all of its buys.

The integration of DV Authentic Marketplace comes on the heels of Taboola's recent <u>recertification</u> for the Brand Safety Certified Seal from Trustworthy Accountability Group (TAG), which certifies that Taboola's operations meet not just the leading industry standards in brand safety, but also the best-in-class practices on a global level. Additionally, Taboola has numerous brand safety certifications and partnerships empowering advertisers to spend with confidence on Taboola, ensuring ads run on trusted publisher sites.

"We are thrilled to enhance our partnership with Taboola with the integration of DV Authentic Marketplace, giving brands confidence that their ad investments are matched with the appropriate content environment, leading to enhanced performance," stated Steven Woolway, EVP of Business Development at DoubleVerify. "This expansion of DV Authentic Brand Suitability contributes to a more robust digital landscape while protecting brand reputation."

"We're proud of our partnerships with leading partners like DoubleVerify, who share a commitment to top-tier industry standards in brand safety, suitability, and transparency," emphasized Adam Singolda, CEO and Founder of Taboola. "With the integration of DV Authentic Marketplace, we're giving advertisers even more controls about where and how their ads appear."

About Taboola

Taboola powers recommendations for the open web, helping people discover things they may like.

The company's platform, powered by artificial intelligence, is used by digital properties, including websites, devices and mobile apps, to drive monetization and user engagement.
