

Taboola Reports Strong Q3 Results and Raises Full Year 2021 Guidance

- *Company delivers strong growth and profitability to beat Q3 guidance*
- *Increases full year guidance across all key financial measures, expects to grow both Gross Profit and ex-TAC Gross Profit 34 to 35% for the full year 2021*
- *Completed acquisition of Connexity on September 1, 2021*

New York, NY, Nov 9, 2021 -- Taboola (Nasdaq: TBLA), a global leader in powering recommendations for the open web, helping people discover things they may like, today announced its results for the quarter ended September 30, 2021.

“The third quarter had some significant milestones for Taboola. It was our first quarter as a public company and we executed well, delivering results above our guidance while also closing our largest acquisition, Connexity, that gives us transformative e-commerce capabilities, growing our yield and revenue to our partners for years to come,” said Adam Singolda, Founder and CEO, Taboola.

“We saw great success across our business, with publishers and mobile smartphone manufacturers - we signed significant new partnerships with publications such as LINE Today in APAC to power recommendations within its popular mobile app and a multi-year deal with NBC Sports in the U.S., which chose Taboola as its exclusive mid-article content recommendation and video provider, enabling us to attract premium demand from brands and agencies. We also announced a groundbreaking partnership for Taboola News with Xiaomi to power recommendations globally across more than 100 million mobile devices in 60 markets. Our focus, execution and having the right strategy towards our goal of recommending anything and anywhere shows in our Q3 results and in our Q4 guidance. I’m excited and optimistic about the future, powering recommendations for the open web,” continued Singolda.

Our third quarter results include one month of Connexity’s financial results following the close of the acquisition on September 1, 2021. We also updated our guidance for Revenues to reflect a revised gross versus net accounting change for Connexity as described in Appendix B. For more commentary on the quarter, please refer to Taboola’s Q3 2021 Shareholder Letter, which was furnished to the SEC and also posted on Taboola’s website today at <https://investors.taboola.com>.

Third Quarter Financial Highlights

- Q3 results exceeded guidance across all financial measures
 - Revenues of \$339 million versus adjusted guidance of \$331 to \$335 million (note that our previous guidance was \$338 to \$342 million, which was reduced by \$7 million to reflect the adoption of net revenue accounting for Connexity - see Appendix B).
 - Gross Profit of \$108 million versus guidance of \$101 to \$103 million.
 - ex-TAC Gross Profit of \$127 million versus guidance of \$122 to \$124 million.
 - Net Income (Loss) of \$17 million versus guidance of \$(7) to \$(5) million, \$17 million of which was due to a reduction in warrant liability.
 - Adjusted EBITDA of \$40 million versus guidance of \$36 to \$37 million.
- Revenue grew \$48 million or 16.6% year-over-year.
 - New digital property partners¹ drove \$23 million of growth.
 - Existing digital property partners² grew \$25 million which translates to net dollar retention³ (NDR) of 109% driven by improvement in yield.

- Gross Profit grew \$18 million or 20.2% year-over-year and ex-TAC Gross Profit grew \$23 million or 21.6% year-over-year.
 - As with the growth in Revenues, the increase in Gross Profit and ex-TAC Gross Profit was also driven by a combination of growth from new digital property partners³ and existing digital property partners. The growth from existing was driven by strong improvements in yield as well as from one month of Connexity in our Q3 2021 results.
 - These gains year-over-year were partially offset by the withholding in the prior year of \$7 million in guaranteed TAC payments to publishers that we subsequently volunteered to pay in the fourth quarter of 2020.
- Operating expenses grew \$40 million or 58% year-over-year. Excluding higher share based compensation following becoming a public company and holdback compensation related to the Connexity acquisition that combined for a \$14 million year-over-year increase, operating expenses grew \$26 million or 41.4% year-over-year. This increase was driven partly from having one month of Connexity in operating expenses. In addition, other drivers by expense category include:
 - Within research and development, increases in headcount were partially offset by lower depreciation related to timing of new server investments. We continue to invest in our proprietary, deep learning data engine as well as new products and tools to support our publishers and advertisers.
 - Within sales and marketing, expenses increased to support our business growth and to reflect higher D&A related to intangibles from the Connexity acquisition.
 - Within general and administrative expenses, expenses increased from higher professional fees and legal expenses related to M&A transactions and regulatory matters. Also, contributing to the increase were public company expenses and a partial return to more normal operations following the COVID pandemic.
- Net Income of \$17.3 million was \$0.6 million higher year-over-year primarily driven by a \$17 million reduction in warrant liability, lower income taxes of \$7.5 million and higher gross profit that more than offset higher operating expenses. Adjusted EBITDA of \$39.7 million decreased by \$0.3 million year-over-year as higher operating expenses offset the higher gross profit.
- EPS was \$0.07 per diluted share in the third quarter. The EPS was based on fully-diluted shares outstanding of 259.3 million.
- Our fully-diluted shares outstanding to start Q4 2021 is estimated to be approximately 272 million.

¹New digital property partners within the first 12 months that were live on our network.

²Net growth of existing digital property partners, including the growth of new digital property partners (beyond the revenue contribution determined based on the run-rate revenue generated by them when they are first on-boarded).

³Net Dollar Retention is the net growth of existing digital property partners for the given period divided by the revenues from the same period in the prior-year.

Fourth Quarter 2021 and Full Year 2021 Guidance

The Company's strong third quarter results provide us confidence to raise our fourth quarter and full year 2021 guidance above our previous guidance. Note that the guidance for Revenues has been adjusted to reflect the revised gross versus net accounting change for Connexity as described in Appendix B.

For the Fourth Quarter 2021, the Company currently expects:

- Revenues of \$392 to \$396 million
- Gross Profit of \$129 to \$132 million
- ex-TAC Gross Profit of \$163 to \$165 million
- Adjusted EBITDA of \$61 to \$63 million

For the Full Year 2021, the Company currently expects:

(dollars in millions)	Increased Guidance (as of 11/9/21)	Year over Year Growth	Previous Guidance (as of 9/28/21)
Revenues	\$1,363 - \$1,367	15%	\$1,351 - \$1,359
Gross Profit	\$427 - \$430	34% - 35%	\$418 - \$424
ex-TAC Gross Profit	\$512 - \$515	34% - 35%	\$503 - \$509
Adjusted EBITDA	\$174 - \$177	64% - 66%	\$168 - \$171

Although we provide guidance for Adjusted EBITDA, we are not able to provide guidance for projected Net income (loss), the most directly comparable GAAP measures. Certain elements of Net income (loss), including share-based compensation expenses and warrant valuations, are not predictable due to the high variability and difficulty of making accurate forecasts. As a result, it is impractical for us to provide guidance on Net Income (loss) or to reconcile our Adjusted EBITDA guidance without unreasonable efforts. Consequently, no disclosure of projected Net income (loss) is included. For the same reasons, we are unable to address the probable significance of the unavailable information.

Our guidance assumes that the global economy continues to recover, with no major COVID-19 related setbacks that may cause economic conditions to deteriorate or significantly reduce advertiser demand.

¹For the 2021 periods, a substantial majority is Share-based compensation expenses related to going public.

²For 2020 periods, represents costs associated with the proposed strategic transaction with Outbrain Inc. which we elected not to consummate, and for 2021 periods, relates to the acquisition of ION Acquisition Corp. 1 Ltd., the acquisition of Connexity and going public.

We calculate Ratio of Net income (loss) to Gross profit as Net income (loss) divided by Gross profit. We calculate Ratio of Adjusted EBITDA to ex-TAC Gross Profit, a non-GAAP measure, as Adjusted EBITDA divided by ex-TAC Gross Profit. We believe that the Ratio of Adjusted EBITDA to ex-TAC Gross Profit is useful because TAC is what we must pay digital properties to obtain the right to place advertising on their websites, and we believe focusing on ex-TAC Gross Profit better reflects the profitability of our business. The following table reconciles Ratio of Net income (loss) to Gross Profit and Ratio of Adjusted EBITDA to ex-TAC Gross Profit for the period shown.

APPENDIX B: Adoption of Net Revenue Accounting for Connexity

Prior to our acquisition of Connexity in September 2021, Connexity recorded a portion of its revenues on a gross basis, before traffic acquisition costs, and a portion on a net basis, after traffic acquisition costs. After we acquired Connexity, we determined that we will account for Connexity's revenues on a net basis beginning on the September 1, 2021 acquisition date. This change has no impact on Connexity's gross profit, ex-TAC Gross Profit, net income (loss) or Adjusted EBITDA but results in lower revenues compared to Connexity's pre-acquisition accounting presentation. This change is reflected in our Q3 2021 actual results and in our guidance presented today for Q3, Q4 and full year 2021, all of which have been adjusted for the adoption of net revenue accounting compared to the corresponding prior guidance.
